SEPARATION WALL SYSTEM FOR DESKS

PHYSICAL AND SOCIAL DISTANCING TOOL

Why is it important?

Cover wall protection is crucial for reducing risk the spread of contagious illnesses such as COVID-19 (coronavirus). The virus can spread through coughing, sneezing and close contact. By implementing a cover wall system between the seats on working/dining tables, we reduce the chances of catching the virus and spreading it within the company community.

Where to apply? How it works?

MOLINO24 covering system is ideal to apply at any type of hotel reception desks. The covering panel is fully transparent. It does not block natural light and view. We are offering several type of fixation methods to fit perfectly to your environment.

Cleaning and Disinfecting

MOLINO24 offers proved disinfectant chemicals agents which destroy bacteria and viruses on a non-living objects while it does not damage the acrylic panel surface. HACCP conform.

Design.

MOLINO24 designer team is ready to develop a covering wall system which perfectly fits to your lounge table design:

- Shapes, sizes
- Safe structure design
- Any info can be printed onto the panel to inform and educate your employee
